ARTISAN MADE UNISEX NATURAL & ORGANIC

# THE VALOR STORY

Valor was born from an obsession for organic, natural products that were good for the skin, kind to the environment and smelled delicious.

Our beginnings were humble, initially a fundraiser for Sea Shepherd and selling at local markets in the Byron Bay hinterland. Very quickly, Valor became an unexpected hit. We found that more and more men (often with their partners encouraging them) were looking for simple but effective skin, shaving, and beard care products that were not packed full of nasty and unnecessary chemicals, and most importantly, that smelled delicious (both to the men and their partners!).

Our products were quickly taken up by local grocery, organic & natural stores, and gift shops. Even Chris Hemsworth was a regular at our Byron stall (but our team member was too shy to ask for a photo!)
Incredibly, we started to receive international orders from travellers who had tried the products in Australia and continued to purchase from their home country - this continues with some customers now re-purchasing years later.

Next came corporate event organisers buying a wide range of products for corporate gifts and conferences, closely followed by museums and tourist destinations, also looking for natural, ethical products.
Our range offers a variety of products, gifts, and accessories and we have a cult following for Pit Stop - our healthy, aluminium-free deodorant that really works - and our beautiful Castile Soap Body Washes - perfect for sensitive skin.

Our products are still artisan made in small batches, and we dispatch daily from our Gold Coast warehouse.

# THE VALOR AROMAS

**Our incredible aroma profiles are second to none. Forget the run-of-the-mill scents and indulge in something truly unique.**

## VALOR ORIGINAL

Grounded, earthy, and quietly bold — Valor Original combines lime, patchouli, fennel, clove, and aniseed with a base of rich plant oils. The result is a warm, aromatic scent that feels rugged yet refined.
**Fun note:** Patchouli was once traded along the Silk Road to protect silks, while clove was valued as highly as gold in medieval Europe.

## FIREWOOD BLEND

Smoky, spicy, and invigorating, Firewood is built around cedarwood, sandalwood, ginger, bergamot, black pepper, clary sage, and cardamom. It's a bold and masculine scent with warmth at its core — like embers glowing after dusk.
**Fun note:** Sandalwood has been used in meditation and rituals for centuries to bring calm and focus.

## WATEGOS BLEND

Bright, fresh, and coastal — Wategos captures the energy of the ocean breeze with grapefruit, peppermint, frankincense, and cedarwood. It's uplifting, cooling, and effortlessly modern.
**Fun note:** Grapefruit was once known as the "forbidden fruit" when it was discovered in the Caribbean in the 1700s.

# CHRISTMAS GIFTS

Christmas gift sets for the men (and women) in your life. Each set comes ready to give, in a gift sack or box with a tag, so there's nothing left to wrap.

## THE TRAVEL PREPARED GIFT SET

Good grooming. Wherever life takes him.
A weekend away, a work trip or simply a better morning routine. Travel Prepared brings practical grooming essentials together in one generous jute bag, for the man who likes to keep things simple.
